

How important do you feel each goal is?

- 1 - Extremely Important
- 2 - Very Important
- 3 - Important
- 4 - Not Too Important
- 5 - Unimportant

WASHINGTON TOWNSHIP

T & E

EDUCATIONAL GOALS STATEMENT

How well do you feel this goal is being accomplished in our schools?

- 1 - Very Well
- 2 - Moderately Well
- 3 - Poorly
- 4 - Do Not Know

It is our goal for every student that, as a result of his/her schooling in Washington Township, he/she may:

☐ Acquire the basic skills of listening and reading with comprehension, so that he/she may function as a literate adult in society, continue to absorb knowledge and information through the spoken and printed word, and utilize these skills for practical and recreational purposes throughout life.

☐ Acquire the basic skills of communication - speaking and writing - so the student can express himself/herself effectively both orally and through the written word.

☐ Acquire the basic skills of mathematics, so that he/she may function in an increasingly technological society and utilize these skills in practical life situations.

☐ Acquire the skills of locating information, solving problems, reasoning, interpreting, critical thinking, and organization that will promote a positive, enthusiastic attitude toward learning so that he/she may develop a continuing quest for learning throughout life.

☐ Develop the awareness that life means change, and acquire the skills, knowledge, and adaptability necessary to meet an ever-changing life with flexibility and confidence.

☐ Acquire knowledge of local, state, and national history, government, and economics, to attain appreciation of our American heritage and the ability to function as a responsible and effective citizen of a democratic society.

☐ Acquire knowledge of the social sciences, including an understanding of the past achievements and failures of man, current social issues, and understanding of other cultures, races, languages, and physical environments, with a growing awareness of the interdependence of all human beings. ☐

☐ Develop understanding, respect, and the ability to relate to others, regardless of differences. ☐

☐ Acquire the basic skills and knowledges of the physical and biological sciences in order to understand the world in which we live and to function effectively and responsibly in an increasingly technological society. ☐

☐ Acquire knowledge, respect, and an attitude of responsibility toward the environment in which we live and its natural resources, including ecological balance and man's inter-relationship with nature. ☐

☐ Understand, respect, and know how to care for the human body through the accumulation of knowledge and the development of skills which will promote physical and mental health throughout the student's life. ☐

☐ Recognize, value, and respect himself/herself as a unique and worthy physical, intellectual, social, and emotional being with a growing system of personal ethics. ☐

☐ Understand and be able to deal constructively with his/her potentialities and limitations, likes and dislikes, and feelings toward himself/herself and others. ☐

☐ Acquire the knowledge and contribute to the ability to function as an independent, responsible member of society, able to cope with the practical demands of job and family life. ☐

☐ Acquire a knowledge of the broad spectrum of career opportunities open to him/her, and an introduction to the skills needed in the vocation of his/her choice, with guidance in matching one's own capabilities to possible career choices. ☐

☐ Become increasingly aware of the beauty, symmetry, and harmony that exists all around us, through participation in the arts, through appreciation of the creative and artistic expressions of others, and through the developing recognition of beauty and art in all fields of endeavor. ☐

Dear Resident:

Your township Steering Committee for T & E has completed the writing of a set of Educational Goals for our district. On the reverse side of this sheet you will find 16 Educational Outcome Goals, which represent the summation of inputs from over 400 community, staff, and student participants.

We would like to have you carefully read the 16 Goals and respond to the opinion survey on the relative importance and present effectiveness of each. This mailing constitutes validation of the Washington Township Goal Statement by the community, so we are hoping for a large return.

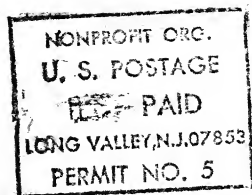

Please return the completed Goals Survey no later than April 25 to your local school principal's office, or mail to:

Mr. B. A. Cucinella, Superintendent
402 West Mill Road
Long Valley, New Jersey 07853

We appreciate your taking part in this very important step in assuring thorough and efficient education in our Township schools.

Mr. B. A. Cucinella, Superintendent
Dr. F. R. Hobbie, Coordinator

Washington Township Board of Education
